

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Patent No.: 7,324,442 Docket: STFD.009PA  
Issue Date: January 29, 2008 Patentee: *Pan et al.*  
Title: ACTIVE QUEUE MANAGEMENT TOWARD

---

REQUEST FOR CERTIFICATE OF CORRECTION

Certificate of Correction Branch  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

It is requested that a Certificate of Correction be issued correcting printing errors appearing in the above-identified United States patent. Two copies of the text of the Certificate in the suggested form are enclosed. As none of the errors listed is due to Applicant's mistake, no fee is necessary in connection with this Certificate.

This change does not affect the scope of the claim language. The correction results from a typographical error made by the PTO. The original claim can be found in an Amendment to the PTO dated June 15, 2007.

Respectfully submitted,

CRAWFORD MAUNU PLLC  
1150 Northland Drive  
Suite 100  
St. Paul, MN 55120  
(651) 686-6633

CERTIFICATE OF CORRECTION

PATENT NO. : 7,324,442

PAGE 1 of 1

DATED : January 29, 2008

INVENTOR(S) : Pan et al.

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

In the Specification

Col. 6, line 13: "m  $\geq$  1" should read  $-m \geq 1$ .

In the Claims

Col. 8, line 20, Claim 13: should read

--A system for managing a queue in a flow-identification arrangement susceptible to unbalanced bandwidth allocation, comprising:

    a server including a CPU arrangement programmed and arranged to  
    detect a matching flow identification between a  
    recently-received incoming packet with at least one  
    packet selected from a set of outgoing packets; and  
    in response to the matching flow identification detection,  
    mitigate unbalanced bandwidth allocation due  
    to congestion-problem flows by reducing the pro-  
    cessing priority of at least one of: said at least one  
    selected packet, and the recently-received packet,  
    wherein the incoming packet is not a retransmission  
    of said at least one selected packet.--
